

## LEE/SHOEMAKER PLLC TEAM COUNSELS GEO-TECHNOLOGY ASSOCIATES IN ACQUISITION OF TERRA NOVA ENGINEERING

Geo-Technology Associates, Inc. has joined forces with Terra Nova Engineering, PLLC, a geotechnical engineering and consulting firm based in Nashville, Tennessee. This transaction expands GTA to 17 offices located throughout the mid-Atlantic region, Ohio, North Carolina and Tennessee. GTA and TNE have embraced the opportunity to combine both their capabilities and mutual long-standing dedication to achieving client and project success.

“With Dan Terranova’s continued leadership in Tennessee, GTA looks forward to growing in Nashville and expanding the office’s geotechnical engineering, construction observation & testing services, and laboratory capabilities. The office will continue as a regional hub for GTA to continue providing services for projects located in southern Kentucky and Alabama,” says Dave Zmijewski, GTA President.

Lee/Shoemaker PLLC represented GTA throughout due diligence, drafting, and negotiating all transactional documents.
