

LEE/SHOEMAKER TEAM COUNSELS BLACKSTONE CONSULTING LLC IN TRANSACTION WITH RIMKUS CONSULTING GROUP, INC.

Blackstone Consulting LLC, a leading consultant for evaluating risks associated with real estate investments, has joined forces with Rimkus Consulting Group, Inc., a worldwide provider of forensic engineering and technical consulting services operating in more than 95 offices across the United States, Canada, and the United Kingdom.

Blackstone is a New York-based provider of environmental and property condition assessment due diligence services for private and publicly traded equity investors, lending institutions, and legal counsel. In addition, Blackstone provides structural engineering and seismic risk assessment services, environmental investigation, remediation management, building energy performance assessment, and construction consulting services including pre-construction plan and cost review and project monitoring.

“Joining the Rimkus team allows us to strengthen and expand our existing capabilities across the United States and to also introduce a broader range of valuable consulting services to our long-term client base. We look forward to working alongside their seasoned and renowned experts,” said Stephen E. Manelis, CEO and Founder, Blackstone Consulting LLC.

Lee/Shoemaker PLLC represented Blackstone Consulting LLC in drafting and negotiating the Letter of Intent, employment agreements and all transactional documents.
