IBI GROUP INC.
IN ACQUISITION OF
RLC ARCHITECTS, P.A.**

IBI Group Inc. (IBI), a leading provider of global design and technology services, has acquired RLC Architects, P.A. (RLC) as of April 4, 2022. IBI focuses on future-forward solutions and technology-driven design in over 60 offices in 12 countries across the world.

Founded in 1990, RLC Architects specializes in planning and designing award-winning buildings and communities in South Florida. “The addition of RLC’s expertise to IBI’s existing architectural and engineering services is an exciting complement to IBI’s current work and provides a great opportunity to deepen and broaden our relationships with the South Florida and Southeastern U.S. client base,” said IBI Group Director, USA, Todd Hoisington.

“Integrating the RLC team’s expertise and focus on industrial distribution centres — a key element of efficient supply chains — adds a unique skillset to IBI, which enhances our industrial engineering and architectural practice and expands our U.S. reach” says IBI Group CEO, Scott Stewart.

James F. Lee, Jr., Esq., Joseph W. Cooch, Esq., and Taylor T. Dolan, Esq. of Lee/Shoemaker PLLC represented IBI Group in providing corporate licensure expertise and drafting and negotiating all transactional documents.
